DANTE
AV-over-IP

GLOBAL
EXPERIENCE

Cloud • AI • Digital Innovation

Enterprise AV • Systems Integration

Dante AV-over-IP Integration

Audio networking, routing, DSP configuration and commissioning in mission-critical environments.

Designed, commissioned and managed enterprise Dante audio networks across cruise and live entertainment environments.

- Enterprise Dante network design
- Audio routing & clock synchronization
- DSP configuration & optimization
- Hardware commissioning
- Redundancy & live troubleshooting

Yamaha • Audinate • DSP • Enterprise Audio Networking

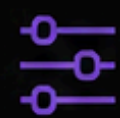

AV Systems Operation

Installation, configuration and daily operation of professional AV systems in cruise and entertainment environments.

Key Responsibilities

AV System Installation
Hardware setup and integration

System Configuration
DSP, routing and control

Operation & Monitoring
Live operation and system monitoring

Troubleshooting
Diagnostics and quick issue resolution

Team Collaboration
Work with crew and technical teams

Technologies

Yamaha • IMECON • VX-8N • LED Systems • Control Software

Delivering reliable AV solutions that enhance guest experience and support seamless entertainment operations.

Video Systems & Multimedia

Deployment, configuration and maintenance of enterprise video infrastructures, multimedia systems and digital display technologies across cruise and hospitality environments.

Key Responsibilities

 **Video Systems Deployment**
Setup and integration of video distribution and processing systems

 **Multimedia Infrastructure**
Rack build, equipment installation and system integration

 **LED Controllers & Processors**
Configuration of LED processors and video controllers (VX Series)

 **Content Distribution**
Management of video sources, signage and content scheduling

 **Video Troubleshooting**
Diagnostics, maintenance and performance optimization

Technologies

NovaStar • VX Series • IMECON • LED Systems • Digital Signage
Multimedia Servers • Video Processing • Control Software

 Delivering robust video and multimedia solutions that enhance guest experience and operational efficiency.

Crestron Systems Integration

Design, programming, commissioning and integration of enterprise AV control and automation systems for yacht, hospitality and commercial environments.

Key Responsibilities

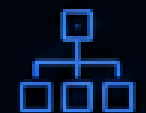

Control System Programming

Programming and commissioning using Crestron SIMPL Windows.

AV Automation

Touch panels, room control and smart automation.

Enterprise Systems Integration

Serial, IP, network and third-party device integration.

Commissioning & Testing

Factory testing, onsite commissioning and troubleshooting.

Yacht & Hospitality Projects

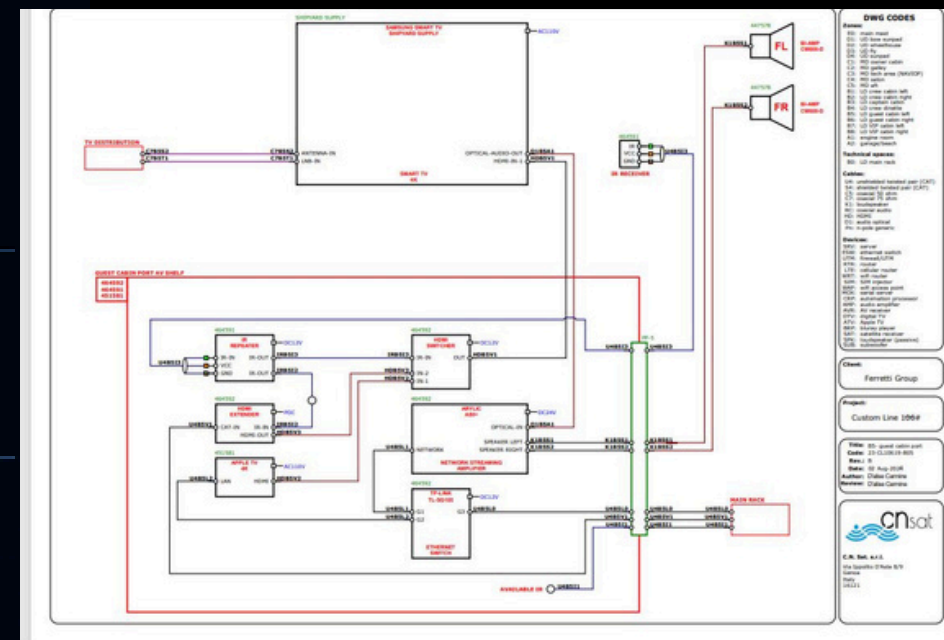

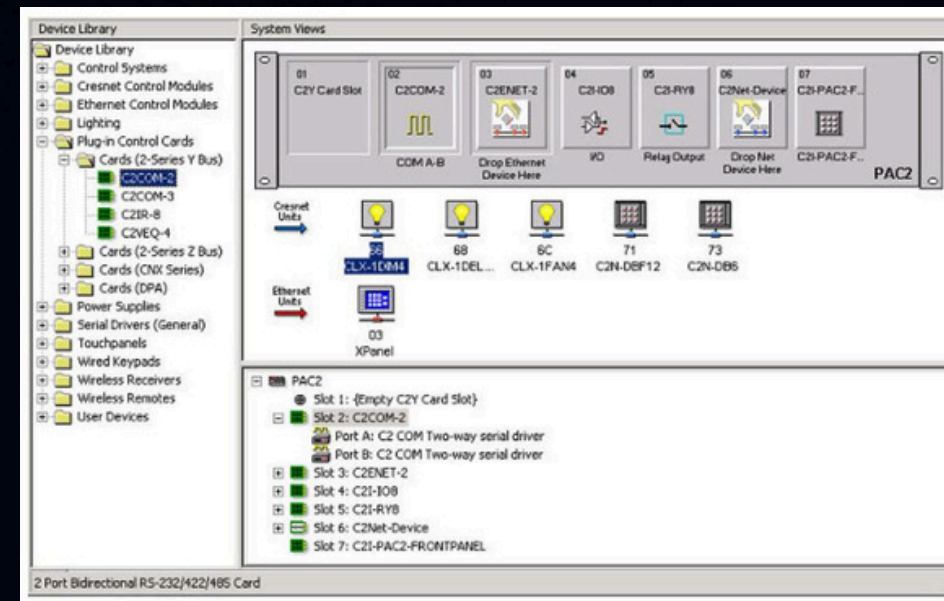

Custom AV infrastructures for luxury yachts and hospitality environments.

Technologies

Crestron • SIMPL Windows • VT Pro-e • DMPS • NVX • Touch Panels • Microsoft Teams Rooms

Delivering intelligent AV control solutions through programming, automation and enterprise systems integration.

Mika Häkkinen: Inside F1 with the Flying Finn

Paddock Stories Q&A session with Mika Häkkinen
Former two-time world champion with McLaren
hosted by Immy Barclay

Saturday 25th November
9.30pm

Stefano Domenicali: The man behind F1's global ascension

Paddock Stories Q&A session with Stefano Domenicali
F1 CEO
hosted by Laura Winter
